

NIKHIL S J

Software Engineer

Tumakuru, Karnataka | +91 9482948890 | nikhilsj2026@gmail.com | linkedin.com/in/nikhilkumar1999

SUMMARY

Software Engineer with 2+ years of experience building web and mobile applications using Angular, React, Node.js, and Android. Skilled in developing responsive UIs, REST APIs, and GraphQL services, with hands-on database experience in MySQL, SQL Server, and MongoDB. Proven track record delivering production-grade software through AWS deployment, CI/CD pipelines, third-party API integration, and Agile/Scrum practices.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Java, SQL

Front-End: React, Angular, Bootstrap

Back-End: Node.js, Express.js, REST API, GraphQL, Swagger

Mobile: Java, Kotlin, Android

Database: MySQL, MongoDB, Firebase

Testing & Tools: Postman, Jest, JUnit, Git, GitHub, Bitbucket

DevOps & Cloud: CI/CD, Docker, AWS (S3), Google Play Console

Methodology: Agile, Scrum, Sprint Planning, JIRA

WORK EXPERIENCE

Front-End Developer

Feb 2025 - May 2026

Turntech India Private Limited, Bengaluru, Karnataka, India

- Built and maintained responsive, cross-browser Angular (PWA) applications, improving UI consistency across devices
- Integrated REST APIs and GraphQL with JWT/OAuth authentication, securing data access across modules
- Optimized component rendering and API calls, reducing load time and improving application performance
- Developed native Android application using Kotlin and Android Studio, extending platform reach to mobile
- Collaborated in Agile/Scrum sprints with designers, backend engineers, and QA; led code reviews and production deployments. Translated Figma designs into responsive, production-ready UI; tracked sprints and tasks via JIRA

Junior Software Developer

Nov 2023 - Jan 2025

Technonova Private Limited, Tumakuru, Karnataka, India

- Developed and maintained web applications using Java, Angular.js, HTML, CSS, and JavaScript
- Built native Android applications (Java, XML); managed releases via Google Play Console
- Designed SQL-based REST APIs and optimized MySQL databases, ensuring reliable data flow and integrity
- Resolved production issues end-to-end, including crash debugging and API testing via Postman
- Managed sprint planning and task tracking using ClickUp across full software development lifecycle

Intern Software Engineer

May 2023 - Oct 2023

Technotaranga Solutions Private Limited, Tumakuru, Karnataka, India

- Built front-end modules (React.js, Bootstrap, Material UI) for Writingfuture, a school management platform covering attendance, fees, and timetables
- Developed responsive UI and API integrations for Letsout, a homestay booking platform
- Contributed to Agile development cycles, from requirements gathering through QA fixes

PROJECTS

Life Minus Work - Social Lifestyle Platform

Tech Stack: AngularJS (PWA), Node.js, Express.js, MongoDB, Socket.IO, JWT

- Developed a responsive AngularJS PWA with offline support, and modules for posts, event bookings, and activity management with real-time notifications
- Integrated real-time chat using Socket.IO and SMS booking notifications; implemented secure JWT-based authentication
- Managed application deployment with environment-based configurations for staging and production

Pulseright Healthcare System

Tech Stack: Angular, Capacitor (Android), TypeScript, Node.js, Express.js, MongoDB, AWS, REST APIs, WebSockets, OpenAI API

- Built responsive Angular web and Android (Capacitor) apps sharing a backend, with dashboards for patient records, consultations, and billing
- Implemented real-time WebSocket order tracking and an OpenAI-powered chatbot for appointment scheduling.
- Developed intelligent prescription forms with auto-suggestions to improve accuracy and streamline data entry

Transport Management System (Web & Mobile)

Tech Stack: Angular, Android (Java), SQL, REST APIs, Google Maps API

- Developed Angular web and Android apps on shared REST APIs for vehicle tracking, live location monitoring, and shipments
- Managed Play Store releases, production issue resolution, and stakeholder collaboration for ongoing feature enhancements
- Built modules for GC generation, driver and vehicle records, inspections, issue reporting, and ODO/KM validation

Purchase Order Mobile App

Tech Stack: Android (Java), SQL, REST APIs

- Built a native Android app for purchase voucher creation, stock retrieval, and supplier management, with secure auth and WhatsApp sharing
- Added error tracking and resolved production issues, collaborating directly with clients to enhance business workflows

Track My Things

Tech Stack: Kotlin, Android, REST APIs

- Developed a native Android inventory app with categorized item search, add, and delete functionality using REST API and local storage
- Designed search and filtering functionality to help users quickly locate stored items and improve personal organization

EDUCATION

Master of Computer Application

2021 - 2023

Sri Siddartha Institute of Technology, Tumakuru | CGPA: 9.6

Bachelor of Computer Application

2018 - 2021

Sheshadripuram Degree College, Tumakuru | CGPA: 9.4

PUC

2017 - 2018

Sarvodaya Pre-University College, Tumakuru | 81%

SSLC

2015 - 2016

Stella Maris High School, Kunigal | 96%

CERTIFICATIONS

- Angular Development - Udemy
- MERN Stack - Udemy
- Bootstrap - Udemy
